Baseball Multiplication (1 to 10 Facts)

- Materials**
- 1 *Baseball Multiplication Game Mat* (*Math Masters*, p. G3)
 - number cards 1–10 (4 of each)
 - 4 counters
 - 1 calculator or 1 multiplication/division table

Players 2 teams of one or more players each

Skill Multiplying with automaticity

Object of the Game To score more runs in a 3-inning game.

Directions

- 1 Shuffle the cards and place the deck number-side down on the table.
- 2 Teams take turns being the pitcher and the batter. The rules are similar to the rules of baseball, but this game lasts only 3 innings.
- 3 The batter puts a counter on home plate. The pitcher draws 2 cards. The batter multiplies the numbers on the cards and gives the answer. The pitcher checks the answer and may use a calculator to do so.
- 4 If the answer is correct, the batter looks up the product in the Hitting Table to the right. If it is a hit, the batter moves all counters on the field the number of bases shown in the table. The pitcher tallies each out on the scoreboard.
- 5 An incorrect answer is a strike and another pitch is thrown (2 more cards are drawn). Three strikes make an out.
- 6 A run is scored each time a counter crosses home plate. The batter tallies each run scored on the scoreboard.
- 7 After each hit or out, the batter puts a counter on home plate. The batting and pitching teams switch roles after the batting team has made 3 outs. The inning is over when both teams have made 3 outs. Shuffle all cards and replace the deck between innings or when all cards have been used.

Scoreboard					
Inning		1	2	3	Total
Team 1	outs				
	runs				
Team 2	outs				
	runs				

Hitting Table 1 to 10 Facts	
1 to 21	Out
24 to 45	Single (1 base)
48 to 70	Double (2 bases)
72 to 81	Triple (3 bases)
90 to 100	Home Run (4 bases)

The team with more runs at the end of 3 innings wins the game. If the game is tied at the end of 3 innings, play continues into extra innings until one team wins.
